

“OSHKOSH 2017 OR BUST!”

HELP US BUILD A PLANE!

Make your tax-deductible donation today.

Last July, at the annual EAA AirVenture show in Oshkosh, volunteers put together five sets of aircraft wings, in less than a week. EAA chapters world-wide applied to receive those wings, provided they agreed to use the wings to finish an airplane, and fly it to AirVenture in 2017. *Chapter 555 won!* We got a free set of Waiex wings, and put all of our chapter money into the rest of the Waiex kit. We're building the bird much faster than we expected, but now we need more cash to buy an engine, instruments, and other items to finish it. *Please help us purchase these items, so we can show the world what southern New Mexicans can do!*
